Hesham Sharaf: Qetaifan Island North, the first Entertainment Island in Qatar, is the closest to the Lusail stadium where the inauguration of the FIFA World Cup 2022 will take place and hence it will serve as a touristic destination and attract tourists/fans to the Water Park that will be operating during the world cup.

The entertainment aspect is reflected around the island through the Waterpark, Linear Park & 6 beaches backed by hospitality composed of a beachfront hotel operated by Rixos & leisure component resembled by the beach club. As for the live concept, the residents have 360 waterfront views and surrounded by necessary amenities such as k-12 school, medical center, mosque, and various retail outlets.

- LLA: The project's description says that its design is inspired by the rich culture and nature of Qatar. Can you please tell us in which

aspects visitors will see this inspiration?

Hesham Sharaf: The Water Park themed rides are inspired by the discovery of oil in Qatar. One of the main attractions is the iconic island inspired by the oil rig featuring the tallest water slide above 80 m.

- LLA: What can you say about the uniqueness of the development for Qatar in terms of energy efficiency and environmental protection?

Hesham Sharaf: QIN is GSAS certified, walkable island, during construction taking into consideration the effect of the development of the marine life.

Hesham Sharaf: This is a well thought of project that would serve the nation & fulfill the needs of the end-user beyond 2022. It is a development that intertwined the luxury with entertainment, striking the balance between living & playing. This project faces all the foreseen & unforeseen challenges possible from tight deadline, resources' & budget, topped with blockade & now the COVID-19 epidemic.
